

Flamin'®

Phormium tenax 'PH0S3' (D)
PBR

FOLIAGE
FIRST
RANGE

Although Flamin' is a single colour Phormium, it uniquely has a tri tone appearance, particularly as it ages.

Flamin' is a semi compact Phormium, with red, orange and bronze tones. Flamin' grows well in full sun to shaded positions. It tolerates heavy frost and moderately dry conditions. Flamin' is low maintenance once established.

Tri tone compact foliage

DESCRIPTION Semi compact Phormium
HEIGHT & WIDTH 80-90cm x 80-90cm
POSITION Full sun or part shade
CARE Low maintenance once established. Water as required
USES Mass plantings, rockeries, ornamental gardens
SOIL TYPE Tolerates a wide variety of soil types

When planting Flamin', ensure the crown or base of the plant is not below the soil level. Apply coarse grade mulch to reduce weed growth and keep the root zone cold and moist. Water as required. Avoid Summer planting in humid areas such as Sydney. However once established, Flamin' handles heat better than most Phormiums.
