

Isabella®

Liriope muscari 'LIRF' (b)

FOLIAGE FIRST RANGE

- Plant 6 Isabella per square metre for a lawn that will have full coverage in 18-24 months. Plant 12 per m² for quicker coverage in 9-12 months.
- For a border that will grow to full size in 18-24 months, plant 6 per linear metre. Plant 12 per linear meter if you want a faster establishment in 9-12 months.
- For how to mow or trim garden borders, visit the website - www.bestplants.com.au.

Isabella is great as a lawn alternative or garden border.

- Isabella is good in full sun to heavy shade.
- The one mow per year lawn alternative.
- Isabella is a better border than Mondo and a better lawn than Mini Mondo - it does better in full sun, drought and frost.
- It recovers better from damage, has beautiful pink flowers and is quicker to establish than Mondo.
- Isabella can be mown because it is faster to reshoot than Mondo - it looks fresh for longer.
